DETAILED ACTION

Information Disclosure Statement

The information disclosure statement (IDS) submitted on 8/31/2006 is now considered by the examiner.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Claims 1-12 are allowed.

Regarding Kawakami et al. (US 20050030995),

FIG. 1

Kawakami discloses in Fig. 1 (above) a semiconductor laser element, comprising:

a first cladding layer 104 with a first conductive type (n type);

a second cladding layer 109 with a second conductive type different from the first conductive type (p type), provided on said first cladding layer;

an active layer 106 provided between said first and second cladding layers;

a light emitting face (front/rear face) which corresponds to one end face of said active layer; and

Art Unit: 2828

a light reflecting face (front/rear face) which corresponds to the other end face opposing one end face of said active layer and is arranged such that a first normal line passing through the center thereof is substantially in parallel with a second normal line passing through the center of said light emitting face,

However, Kawakami does not teach or suggest wherein said second cladding layer 109 has a ridge portion (upper part of the cladding 109) for forming a refractive index type waveguide of which both end faces correspond to said light emitting face and said light reflecting face respectively, in said active layer, a part of said ridge portion, excluding at least both edges thereof, extending in a direction crossing the first and second normal lines at an angle equal to or less than the complementary angle θ_c of the total reflection critical angle on the side face of said refractive index type waveguide respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
